-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

### Status

- 1) ☒ Responsive to communication(s) filed on 10 June 2005.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.

## **DETAILED ACTION**

### ***Response to Amendment***

1. This Office Action is responsive to the Amendment filed 6/10/05.
2. The Amendment filed 6/10/05 successfully overcomes the rejections set forth in paragraphs 1 and 2 of the Office Action mailed 3/21/05. Accordingly, these rejections are withdrawn.

### ***Claim Rejections - 35 USC § 103***

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 1 and 3-23 are rejected under 35 U.S.C. 103(a) as being unpatentable over US 6,501,521 (US '521) in view of JP 9-230124 (JP '124) for the reasons of record as set forth in paragraph 3 of the Office Action mailed 3/21/05, and as further discussed below.

### ***Response to Arguments***

4. Applicant's arguments filed 6/10/05 have been fully considered but they are not persuasive. With respect to the rejection over US '521 in view of JP '124, Applicant argues that JP '124 fails to teach color portions being planarized with respect to the

filled opening portions. Furthermore, Applicant argues there is no incentive or motivation to combine US '521 and JP '124. Specifically, Applicant states that US '521 discloses leaving the holes in the color filter layer, but filling the holes to some extent using a transparent flattening layer.

However, in addition to the embodiment for filling shallow openings with the flattening film, US '521 also discloses an embodiment wherein deep openings are first filled with a transparent resin, then covered with a flattening film (e.g. see column 4, lines 51-54). JP '124 teaches a method for producing a planar color filter by planarizing the surface by polishing, as a preferred alternative to forming an overcoating (i.e. flattening film). Therefore, combining the two references would result in a process wherein the openings in the color filter are filled with a transparent resin, then planarized by polishing (as an alternative to providing a flattening film). Motivation for the combination is found in JP '124, which teaches that planarizing a color filter by polishing is preferable to overcoating.

### ***Conclusion***

5. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the

Art Unit: 1756

shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
